# JAMSTIX

## XL Pak

USER MANUAL

# 1 What is the XL Pak?

The XL Pak combines all expansion Paks available for the original Jamstix 1 into a single product and adds new Jamstix 2 kit mappings. It dramatically expands the sonic capabilities of the internal drum sample player of Jamstix 2 by adding the following sounds :

## 1.1 Acoustic Sounds

<i>Sound</i>	<i>Number in XL Pak</i>
<i>Kick drum</i>	3
<i>Snare drum</i>	15
<i>Toms</i>	16
<i>Hihats</i>	4
<i>Crash cymbals</i>	8
<i>China Cymbals</i>	1
<i>Ride Cymbals</i>	5

## 1.2 Electronic Sounds

<i>Sound</i>	<i>Number in XL Pak</i>
<i>Kick drum</i>	26
<i>Snare drum</i>	19
<i>Toms</i>	5
<i>Hihats</i>	8
<i>Effect sounds</i>	32

The sound palette of the XL Pak ranges from standard kits to a brush kit, a hot-rod kit and a diverse range of electronic sounds. It enables Jamstix 2 to satisfy a huge range of genres without the need for any other drum module.

# 2 Requirements

The XL Pak requires Jamstix 2 and 1.2GB of hard drive space.

# 3 Installation

- open Jamstix 2
- click 'Kit' in the main menu (drumstick)
- click 'Install Pak'
- browse to and select 'xl\_pak\_part1of3.rxp2', then click 'Open'
- repeat the last step for parts 2 and 3
